Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 24-46 are generic to the following 5 disclosed patentably distinct inventions of unrelated chemical structure and function, which share no special technical features:

- a) baculovirus p35 gene,
- b) a cowpoxvirus crmA gene,
- c) herpesvirus-derived v-FLIP gene,
- d) a baculovirus v-IAP gene,
- e) an adenovirus Ad14.7 gene.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed invention from Groups (a)-(e) above for prosecution. **This is not a species election.**

In addition to inventions listed as a-e above each invention is directed to the following **distinct species** of unrelated structure:

- 1) Chinese hamster ovary cells (CHO cells); A mouse myeloma cell, a BHK cell, a 293 cell and a COS cell (see claim 30),
- 2) any of the promoters recited in claims 32-33.

When electing any of the inventions from Groups (a)-(e) above, applicant is advised to simultaneously elect a single species from each of Groups 1-2 above.

There is an examination and search burden for these patentably distinct inventions (as well as species) due to their structural and functional characteristics. **Applicant is advised that the reply to this requirement to be complete must include (i) an election of a single invention to be examined** even though the

requirement may be traversed (37 CFR 1.143) and **(ii) identification of the claims encompassing the elected invention**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election of the invention (or species) may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maryam Monshipouri whose telephone number is (571) 272-0932. The examiner can normally be reached on Tues.-Fri., from 7:00 a.m to 5:30 p.m..
